#### THREAT ASSESSMENT

-----

15. (U) Americans in Seoul are subject to worldwide threat from international terrorists, although we have no information to suggest any specific terrorists threats directed at Americans here. Political demonstrations occur frequently in Seoul, and are occasionally anti-American. Americans can minimize personal risk by staying away from demonstrations and by avoiding confrontation or altercations with protestors. While relatively infrequent by U.S. standards, street crime does occur. Most reported crimes involve pick-pocketing in tourist areas and are predominantly non-violent in nature. The security precautions a person would take in any large city are appropriate throughout South Korea.

16. (SBU) As a matter of prudence, you must assume that all rooms, telephones, cellular phones, and fax machines can be monitored. You should not discuss sensitive or classified information in uncontrolled areas. Official travelers should ensure that hard-copy

and electronic sensitive information is not left in hotel rooms. Computers, including laptops and Personal Digital Assistants, cannot be brought into the Embassy except with prior permission from the RSO office.

17. (U) Police are considered capable and well trained. Seoul metropolitan authorities staff English-speaking personnel 24 hours daily to handle local emergencies. Telephone numbers are as follows: 112 police emergency, 119 fire and ambulance.
